POTENTIAL MASSACHUSETTS RADIOLOGIC TECHNOLOGIST LICENSEE:

Chapter 111, Section 5L of the Massachusetts General Laws established an Advisory Commission for licensing radiologic technologists within the Commonwealth. This statute mandates that no person shall perform the duties of a radiologic technologist (x-ray, nuclear medicine or radiation therapy technologist) without such license and further that the fee for such license and renewal shall be determined annually by the Commissioner of Administration.

The Advisory Commission for Radiologic Technologists was established under this statute and developed regulations which were effective March 1, 1988 (116 CMR 2.00). Under these regulations, Section 2.03 states that an individual who is a certified radiologic technologist in a national or international certifying board, shall be deemed licensed provided such board is recognized by the Commission. You should complete this application only if you have successfully passed a qualifying examination given by one of the following certification boards:

American Registry of Radiologic Technologists  
British College of Radiographers  
Australian Institute of Radiography  
Canadian Association of Medical Radiologic Technologists  
Nuclear Medicine Technologists Certification Board  
Massachusetts Civil Service Exam

**Once you have completed the enclosed application, return it with a notarized copy of your certification card and a \$75.00 application/processing fee. Please make your check payable to the Commonwealth of Massachusetts and mail it in the enclosed envelope.**

When you return your completed application along with the fee, we will review your documents for eligibility and if everything is correct, we will then issue you an invoice for your actual license. Upon your prompt payment of this invoice, we will then issue you a Massachusetts Radiologic Technologist License.

If you have any further questions concerning the application process, please contact this office during normal business hours.
